

Notice of Intent to Award a Sole Source Contract for Early Autism Solutions

Services: ABA services for students with autism and related consult

Proposed Vendor: Early Autism Solutions

Date: July 2, 2021

Determination and Findings

Center City Public Charter Schools intends to contract with Early Autism Solutions for direct (ABA) therapy and consult to support students with IEPs up to \$35,000 per year. Early Autism Solutions provides focused expertise to support students with Autism. They have worked with CCPCS for approximately four years; in prior years they minimally consulted, however, as student IEPs and needs have grown, so have the hours CCPCS has needed to contract. At this point, it is more beneficial to continue to contract with EAS to ensure continuity of services and preserve student/parent/teacher - therapist relationships than to attempt to source another company that may be able to provide similar services.

This notice of intent is not a request for quotes. A determination not to bid the proposed procurement based upon responses to this notice is solely within the discretion of Center City Public Charter Schools.
